President Eisenhower has made a pretty effective defence of American foreign policy (without any serious defence of certain administrative blunders) and, best of all, has refused to imitate Mr. Khrushchev's hysteria.

It is too early to judge how this furious procession of events has af-fected the world at large. Both the great antagonists and their allies are using massive propaganda to in-fluence the doubtful peoples, with unknown results. Through this haze of words it is impossible as yet to see the real movement of policy.

We know, however, that the United States, after the unprece-dented humiliation of its President, is pursuing a course of dignity, patience and conciliation. The most important statement in Mr. Eisenhower's speech to his nation is that it must continue to do business with Russia, if it can. The efforts to reach some sort of agreement, on some issues like disarmament and nuclear testing, must go forward, if Russia will negotiate

Does Russia intend to negotiate? That is the big question left by the ruins of Paris and it has not been answered. Perhaps the question has not even been decided in a Kremlin which may be bitterly divided.

It seems clear, however, that if Russia will continue to argue about such specific issues as disarmament, it has no intention of negotiating on the central issues of the cold war with Mr. Elsenhower.

Either because it honestly distrusts him or, more likely, because it does not wish any kind of settleit does not wish any kind of settlement just now, Russia regards the remainder of the President's term as a kind of interregnum and lost weekend. It would be foolish, though, to assume that Russia will be any more friendly to a new President. In its devious long-term calculations the personality of any American leader is only a small incident.

THE WESTERN WORLD BE- emerging in these ten days that shook the world is not the personal quarrel between Mr. Eisenhower and Mr. Khrushchev but a basic change in Russian strategy. For reasons widely explained but really seems to have withdrawn suddenly from the whole theory of peaceful co-existence, long nourished by Mr. Khrushchev.

If so, we probably face another harrowing period of tension, with recurring crises on the perimeter of the struggle if not at its centre, in Berlin. It will be surprising if we get through the summer without a to be on a level with Little Saanich clash in some trouble spot like the Indian border, Laos, Quemoy or Korea. In many such places the tinder only awaits the match.

The West, therefore, must brace itself for more shocks, may have to pay for more military defence and assuredly, as Mr. Eisenhower says, must delay no longer in expanding its foreign aid policies, the cheapest sort of insurance.

Meanwhile it is useless to cry over the milk spilled at the Summit and bootless to wrangle over the obvious blunders of American management. The American people will deal in their own way with those matters for they already are show-ing themselves the strongest critics their own Government.

They know, as Mr. James Reston writes in The New York Times from Paris, that their nation has suffered a serious defeat, incurred, in part anyway, by its own mistakes. But, the alliance members to plan together in their common interest. It will be tempting but wrong and dangerous for the Canadian people to blame everything on the United States—wrong because the real blame lies within the Kremlin and dangerous because now, more than ever, the free nations must stand or fall together. "The thing," said Mr. Bennett, "is as easy as rolling off a log as soon as you learn how. Your Government has a lot to learn from mine. What you have failed to understand is that my Government isn't borrowing a nickel from any-body. The PGE, the Power Commis-sion, the Toll Bridge Authority and everybody else is borrowing millions day and night but we have nothing to do with that. We merely guarantee the

"And who," asked the banker, "may that be?"

"WELL, to tell you the truth I haven't w the fogglest notion," said Mr. Bennett with his most disarming smile. "But of course that's none of our busfness. I have enough trouble keeping my Government debt free without worrying about its agencies which. I should add, are absolutely independent so long as they do what they're told."

"Exactly so," the banker agreed. "I must admit that I supposed the people of British Columbia might somehow be compelled to pay the interest and principal of all these borrowings but no doubt you have solved that little diffi-culty and avoided any burden on the

"OF course," said Mr. Bennett. "It may well be, however, that only the people of British Columbia can pay these charges but they never know it and hence never feel it. "Why yes," said Mr. Bennett, "come to think of it, there is. Could you lend me a few hundred million pounds or so to increase our freedom from debt? Of course I wouldn't take a shilling directly but you might have a talk to Gore.

has thus far been marked by weather of the most execrable sort.

I know it is useless to talk about it when one is not prepared to do anything about it, but even the humblest

of us is entitled to express an opinion with which even Bill Hawkins has to agree. Ladies and gentlemen, there are times when our climate stinks!

We are in the grip of a vicious circle. The rains descend, with an emphasis which is quite unnecessary; the brooks carry the

baracimbrachlarogian and useless for fishing, into the sea. For a brief moment the sun comes out, and we emerge thankfully into a damply steaming world. But is the sun out to warm and cheer us? Oh no. Don't be mislead, my friends. It is merely out for long enough to evaporate enough water to make some

more clouds to drop some more rain to swell the rivers and . . .

Yes, indeed, make the grass grow. By the end of May, in any decent climate, the stuff should be starting to turn brown, a process which is greeted with satisfaction by everyone who has a lawn. This June, alas, is not going to be moving free, not have long shot at the rate we are going now. by a long shot, at the rate we are going now.

I was reading the other day, in one of those fascinating bargains which the Queen's Printer occasionally puts out, that the lower end of Vancouver Island has a northern Mediterranean climate. This may be so, but it seems a little trieste for that. My neighbor, Mr. Gaffer, says this spring has started his adriatics something cruel.

A fig for the Mediterranean climate! We have a better authority than a mere soil survey. Did not Sir Francis Drake, when he was cruising these coasts, refer to the Straits of Juan de Fuca as "besette by stinking fogges"? And this was before the advent of the sulphite pulp mill, too. Today they stink even more, those fogges. What is so ripe as a day in June?

Well, as we sit dolefully in our teeming Well, as we sit dolerully in our teeming hands of Mediterranean flora listening to the grass grow, let us spare a thought for those intrepid sailormen who are right now attempting to follow Sir Francis' homeward course. If I was them, I wouldn't turn round at Swiftsure Bank, when Tahiti lies aboad.

God help the sailors on a night like this.

A WRITER'S DIARY

By ROBERTSON DAVIES

No sooner had I finished my column for last week, about the extraordinary methods by which Francis Bacon tried to preserve himself to an old age, than a book by Robert S. DeRopp arrived called "Man Against Aging" (Macmillan) which discusses the subject of old age at length. I recommend it with some reservations. Dr. DeRopo is fond of broad, unsupported generalizations, he is a sloppy writer, and he has a trick of patronizing his betters, such as Toynbee and Shaw. Still, as popularizations of science go, his is not a bad book.

The means by which man kind has sought to recapture youth have been many and pitful. Some of them savour of magic. The ancients be leved that inhaling the breath of young women would revive the old, and doubtless manys a nasty scene resulted from it.

It is unfortunate that under the pressure of events that crowd about this desk in the spring of the year, there are some that get "overlaid" as it were.

They are all important events too-important to the people who have put time and mental and physical effort into them and important to the city where they represent art in action and an accentuation of the

U.S. Steel Production Hits Decline

By JACK LEFLER NEW YORK (AP) The business spotlight focused this week on the giant steel industry, where production sagged but leaders envisioned better times ahead.

In one of the sharpest declines of the year, output sank to 66.9 per cent of capacity, or 1,900,000 tons. A week ago it was 2,031,000, a month ago 2,-210,000 and a year ago 2,650,-

OTTAWA (CP) — Canadian airlines made a profit on operations of only one-tenth of one percent in 1959.

Chairman Paul Davoud of the air transport board reports in his annual review of the airline business that the airlines had operating revenues of \$222,865,000 last year against operating expenses of \$222,626,000 for a profit of \$239,000. The profit in 1958 was \$1,413,000.

Scheduled air carriers had revenues of \$185,433,000 and expenses of \$186,654,000 for a loss of \$1,221,000 compared with a small profit of \$37,000 in 1958.

Trans-Canada Air Lines had a modest net income of \$152,554 but Canadian Pacific Airlines had a net loss of \$3,900,000. The other four scheduled carriers made a small profit or about broke even.

PORTRUSH, Northern Ireland (CP) — Joe Carr of Ireland defeated Bob Cochran of the United States 8 and 7 today to win the British Amateur Golf chambonship for the third time, holes were halved in par fig.

Carr previously had won the ures, itle in 1953 and 1958.

Carr previously nad won the title in 1953 and 1958.

Carr, a slender Dublin haberdasher, thus became the first golfer in modern times to win the British a mateur three times.

Playing brilliant golf over times to win the 6.842 yard, par-72 Portrush course, Carr took a 6-up lead in the morning round with a 68. He went 3 up at the 23rd hole and stifled a brief rally to end the match at the 29th hole.

A state of jitters in the plywood industry in B.C. has brought with it threats of curtailed production, shutdowns, rising inventories, hints of price-cutting and—good news for the consumer—reduced prices.

According to Ernest P. Hudson, of the firm of Stewart and Hudson, plywood prices are 10 per cent lower than in January.

Special Prayers For South Africa

Victoria Anglicans will respond Tuesday to a call to prayer issued by the Archbishop of Capetown, South Africa.

Special services have been arranged throughout the day at Christ Church Cathedral to commemorate the Golden Jubilee of the Union and pray for observance by the government and people of South Africa of principles laid down in a recent Lambeth conference.

The appeal has been endorsed by the Archbishop of Canterbury on behalf of the whole Anglican Communion, the Primate of Canada, and the Lord Archbishop of B.C., Most Rev. Harold Sexton for this diocese.

Dean of the Cathedral, Very Rev. Brian Whittow, said. Dean of the Cathedral, Very Rev. Brian Whitlow, said, "Our brother churchmen in

DEAR ABBY

There Are Such Things! By ABIGAIL VAN BUREN

DEAR ABBY: Please don't think I am studid but this question has to be answered and I am depending on you. My daughter is eleven and she is maturing rapidly. I developed early, too, so I suppose she is taking after me. I just can't bring myself to tell her the facts of life. I have tried, but I can't seem to find the right words. She is a bright girl and I think it would be easier if she would read it in a book. Are there any books for eleven-year-olds on this subject? TONGUE TIED. DEAR TONGUE TIED. DEAR TONGUE TIED. When you buy a Vickery home, we expect you to be hard to please—but we're quite convinced that we can please you. Why? Beca au se there's another hard-to-please character around, and that's Mr. Vickery, Most peoplé are satisfied with NHA specifications when building a home, but not he! No, Sir! NHA; for example, sets a minimum standard for door framing. This isn't good enough for him—he insists on a 4-stud construction for his frames. NHA doesn't require a strong-back over a ceiling unless over a certain span. He does—and every room in your Vickery home, bar the bathroom, has that strongback. Who cares? You should, because it helps prevent ceiling cracks. It's an example of the many unseen ways in which your -Vickery home is better. Take lumber, for another example. A lumber supplier says "Vickery demands, and gets, the best lumber of any contractor on the Island." You wouldn't know the difference if poor lumber was used — Anntil a year or two later. Then come the problems—sagging floors, cracking plaster, sticking doors and so on Your home loses value if built with poor lumber — a Vickery home gains in value over the years.

He said Friday the railway in the mineral possibilities," would "not be in a position to undertake any construction until there had been hearings under the PUC."

Plans to strike the railway across northwestern B.C. were "thrilling" said Mr. Wicks.

He said the firm was now in a position to make a second, complete survey of the area of its route.

The orders were carried out in the name of the National Committee of Unity which engineered Friday's lightning seizure of power.

Newly - appointed martial law commanders appealed to work to restrain their feelings. But a mushrooming crowd of 200,000 persons jammed Ankara's Ataturk boulevard to shout and sing casey.

The first "division" outlined by Mr. Wicks runs 265 miles from Summit Lake, which is the Pacific Great Eastern terminus, to Bear Lake. The line will follow well-timbered valleys, past Fort St. James. North of there it will pass through the fine pine stands. The second division is 275

miles long-from Bear Dease Lake, which is 100 miles south of Cassiar.

Mr. Wicks said there is a passable road from the asbestos development at Cassiar to the head of the lake, and a rough road down to where the railway would cross. It would take at least two years for the construction to reach Dease. This portion would also in-

TYPHOON SPAWNS FLOOD IN MANILA

MANILA (UPI) - A typhoon lashed the Philippines' biggest island of Luzon today, triggering the worst floods in Manila's history and taking a heavy toll of casualties and damages,

Official reports said at least 350 persons were dead or missing. Most were children drowned or swept away by raging flood waters.

Authorities feared the casualty figure would elimb higher when communica-tions on the island are restored.

Police reports said about 20,000 persons were left homeless by the storm—the second natural disaster to hit the Philippines in a week that was marked earlier by death and destruction from tidal waves. Typhoon dam-age was estimated at more than \$1,000,000.

In Manila, streets in some sections were under 15 feet of water. Hundreds of persons were stranded on re or top-floor apartments,

ARMY MARKS 105TH BIRTHDAY

The Canadian Army today marks its 105th anniversary — and the first ceremony in connection with it was staged at Work Point Barracks Priday afternoon by the First Battalion, Princess Patricia's Canadian Light infantry.

The occasion was a ceremonal trooping of the color—literally, carrying the regimental color through the tranks and showing it to the troops.

The moving and dignified trooping was carried through with precision by officers and men who showed the polish that comes only through long training.
